## HEROIC TREATMENT.

How a Dislocated Jaw Was Put Back Into Its Place.

While talking in his sleep Henry Flocke, a builder, residing in Ozone Park, L. I., dislocated his jaw. Mr. Flocke's habit of talking in his sleep has made him the butt of a good deal of joking. He went to bed as usual, but he had not slept long when he began talking. This awoke his wife, who listened for about ten minutes. Suddenly Flocke's nocturnal monologue stopped. He began gasping. Mrs. Flocke was frightened, and she shook her husband into wakefulness.

"Why, what's the matter, Henry?" she asked.

Her husband tried to speak, but in vain. His jaw was immovable. He motioned to his wife that he could not speak, and she endeavored to force his mouth open. He could not move it.

Fearing her husband was suffering from lockjaw, she sent for Dr. McDonald.

"Do you want me to replace your jaw in my own way?" asked the doctor.

Mr. Flocke motioned in the affirmative.

Dr. McDonald stepped in front of Flocke. Without warning the doctor struck Flocke a terrific blow on the left side of the jaw. Flocke showed a disposition to strike back.

"You told me to do it my own way," said the physician. "You observe that your ability to speak is restored."

The blow had knocked Flocke's dislocated jawbone into its proper position, and except for a little soreness he was none the worse.

Dr. McDonald explained that Flocke's jaw was liable to dislocation at any time unless he broke himself of the habit of talking in his sleep.

A Disappointed Diplomat.

An interesting story is told in Washington regarding M. Patenotre, the French ambassador. After congress passed the law empowering the president to send ambassadors, to such countries as would raise the rank of their representatives, Sir John A. Macdonald was the first to inform the president of the intention of his country to make him an ambassador. M. Patenotre conceived the ambition to be the dean of the ambassadors and communicated it to his home government, and this communication arrived before Sir John's.

The state department in the hope of immediate recognition as the first ambassador to this country. He was told that Sir John had anticipated him by informing the department of the action of his government. He was angry, and wrote to the president requesting his intervention. He received instead a chilly letter from Mr. Gresham.

College Athletics.

"Any emphasis given to academic gymnastics that goes beyond the point of developing a man's mind for any other purpose than to give the best possible support to his enlargement as a rational and moral possibility is a perversion of the purpose of human discipline, and to that degree blocks the wheels of all proper college intention," writes Dr. Burkhardt in The Ladies' Home Journal.

"Nevertheless the real annals of the athletic tendency is a wholesome augury of a better breed of men."

BIRDS' EYE VIEW OF RENO, NEVADA.

One's physical feelings, like the faithful setter, search and point out plainly the fact of disease or health.

If a man is not feeling well and vigorous—if he is losing flesh and vitality, if he is listless, nervous, sleepless, he certainly is not well. The down hill road from health to sickness is smooth and declines rapidly.

At the first intimation of disease, the wise man takes a pure, simple vegetable tonic. It puts his digestion into good active order and that puts the rest of his body in order. The medicine that will do this is a medicine that is good to take in any trouble of the blood, the digestion, or the respiration, no matter how serious it may have become.

The medicine to take is Dr. Pierce's Golden Medical Discovery. It is a remarkable remedy. It cures diseases in a perfectly natural way without the use of strong drugs. It cures by helping Nature. It has a peculiar tonic effect on the various digestive juices and furnishing to the blood the proper purifying properties. It reaches out over the whole body and drives disease germs before it into the usual excretory channels. It builds up firm muscular flesh, makes the skin and the eyes bright.

Dr. Pierce's Golden Medical Discovery has been found wonderfully efficacious in the treatment of skin diseases—eczema, tetter, erysipelas, salt rheum—from common pimples or blotches to the worst case of scrofula.

L. P. FISHER, NEWSPAPER ADVERTISING AGENT, 21 Merchants' Exchange, San Francisco, is our authorized agent. This paper is kept on file in his office.

## CIVIL SERVICE REFORM.

A large majority of the people are in favor of civil service reform. They see no reason why competent persons in the postal service, the custom houses, the mints, internal revenue and land offices should be discharged because of a change of administration, and incompetent persons given their places because of their partisan affiliations. The spoilsman, those who are partisan for revenue only, object to the system because it deprives them of the means of getting office for themselves and their retainers.

The late order of President Cleveland brings under the civil service rules nearly 30,000 places, which increases the number of classified positions from 33,736 to 63,736. Almost all officials, except fourth-class postmasters, confidential clerks, cashiers and accounting officers, who are required to give bonds, and officials who have to be confirmed by the Senate, are classified. It is estimated at Washington that there are now only 600 appointments that do not come under the rules.

This is a death blow to the spoils system, which has been a great incentive to what is known as "political dirty work."

Both the old parties are committed by their National platforms to Civil Service reform. The United States Civil Service Commission has been appointed to see that the law and the President's orders regarding it are carried into effect. This Commission is composed of John R. Proctor, President; William G. Rice and John B. Harlow. Men seeking positions in the Government service are examined as to their qualifications and are appointed because of their fitness, not for the ticket they vote, or for the service they render parties.

Of course the spoilsman are angry because of the 63,000 places at the public crib the Civil Service law deprives them of, and will roundly abuse Cleveland for depriving them of so much patronage, which they could barter for votes, but the masses of the people will commend the act as one of the best, if not the best, of his administration.

There is now but little left in the shape of spoils for partisans to fight for, and principle, not the expectation of getting federal pay, will be the governing motive in future Presidential elections, as only a few persons, less than 800 in all—are to be appointed by the President, and these include members of the Cabinet, heads of departments, and Ministers to foreign countries.

## GETTING DISGUSTED WITH THE PARTY.

The 16 to 1 clause in the State Republican platform was inserted at the instance of ex-Governor Colcord. He left his seat as Chairman of the Convention and took the floor in advocacy of the silver cause. He asserted that no party could go before the people of Nevada and solicit their suffrages in opposition to silver. This argument was so logical and forcible that the delegates for revenue only yielded and the ex-Governor carried his point. Now it is stated by the Carson Appeal that ex-Governor Colcord went home realizing that the Republican party is no place for a man entertaining his sound views on the silver question. It is that is so the Governor will be more thoroughly convinced that he or any other person who is sincere in his advocacy of free coinage, is wholly out of place in the Republican party when that party in National Convention frames a platform and nominates a gold standard candidate for President. When that is done, as it now seems morally certain it will be, can ex-Governor Colcord or any other Nevada, except the few who admit that they are for the gold standard, consistently support the Republican nominee for President? Will not the endorsement of a candidate, who, as Senator Sherman says, is committed to the Republican policy of maintaining the gold standard, by men who profess to be for free silver, satisfy every thinking man that such persons are not sincere in their professions and that their advocacy of silver is for deceptive purposes? The simple declaration of 16 to 1 in a State platform cannot be construed as favoring silver when those who make the declaration support a party and a candidate that is committed to the gold standard.

## PRINCIPLES, NOT PARTY NAMES.

The maiden speech of Senator Tillman of South Carolina in the United States Senate was commended by all but the plutocrats of the old parties for its frankness, boldness and truthfulness. The full text of the speech was published in certain newspapers, and the principles which Tillman enunciated were declared to be in full accord with the sentiments of the Populists, and his name was placed at the head of the columns of at least one Populist paper for President of the United States. Now, for no other apparent cause than that Tillman has declared that he is not a Populist, his name has been hauled down from the mast head and he is execrated by those who idolized him and proclaimed him the modern Moses, the Saviour of the country, a few short weeks ago.

This implies that men who assume to be patriotic, men who pose as reform-

ers, men who designate all who differ with them as the purchased tools of corporations, are more devoted to party names than to party principles. Senator Tillman has not retracted a single charge that he made against Cleveland, Sherman or any member of the gold alliance nor discarded any of the principles which he enunciated in his speech in the Senate, yet he is refuted by at least one of his recent worshippers because he is not a Populist. There is consistency, patriotism and reform for you that is only equalled in absurdity to the fellow who tells you he is in favor of silver while doing all in his power for those who are opposed to it.

## SACRAMENTO'S EX-MAYOR

A Warrant issued for His Arrest. SACRAMENTO, May 12.—Shortly before noon to-day a warrant was issued for the arrest of Eugene J. Gregory, ex-Mayor of Sacramento. A complaint was sworn by Mrs. Bruce B. Lee, who accuses Gregory of having embezzled \$9,000 belonging to her. Gregory is one of the most prominent men in California and was once the Republican candidate for Governor. He was once President of the State Board of Trade and was a member of the Board of Managers of the Midwinter Fair.

## What Rhodes Desired.

LONDON, May 12.—The Daily Courier to-day confirms the report that Jameson's raid in the Transvaal failed because Cecil Rhodes wished the reformers to revolt under the Union Jack, while the latter insisted upon the Transvaal flag. It appears that he confirmed that all arrangements were made to proclaim Chas. Leonard President and John Hays Hammond States Attorney, but that they refused to alter their plans and consequently left Jameson in the lurch.

## TELEGRAPHIC NOTES.

A cyclone unroofed the three-story Academy of Music and blew down a part of the City Hall at Sibley, Iowa, night before last.

The report that the Spanish butcher Captain General Weyler of Cuba has been dismissed is denied.

The House Committee on Interstate and Foreign Commerce ordered a favorable report on the Mahon Nicaragua Canal bill, as amended by the Sub-Committee.

The State Convention of Christian Endeavor Societies meets at San Jose, California, to-morrow. It is expected that not less than 1,500 persons will attend the convention.

The Supreme Council of the A. P. A. is in session at Washington. There are about 200 delegates in attendance, all the States and Territories except three being represented.

The Senate Finance Committee appointed Harris, Vest and Wallhall, Democrats, Jones of Nevada, Populist, and Platt, Republican, a sub-committee to investigate the bond issue under the Peffer resolution.

Ex-police Captain Edward B. Carpenter of New York pleaded guilty to having received a bribe of \$1,000 from the Liquor Dealers' Association and was sentenced to three months in the Penitentiary and to pay a fine of \$1,500.

The Russians, through an American agent named Smith, have taken possession of the disputed territory Cheefoo, over which the British claim rights. The Russians seized twelve of the British concessions in defiance of treaty rights. There are six Russian war ships and four American war ships at Cheefoo.

The Republican State Convention met at Butte, Montana, yesterday. The anti A. P. A. delegates were seated by a vote of 192 to 100. The platform favors free coinage and Senators Carter and Mantel, Congressmen Hartman, J. W. Streville, L. G. Phelps and Alex. Metzger were elected delegates to the National Convention.

At the regular meeting of Congressional ministers in Chicago a resolution was introduced asking that a committee of five be appointed to review the action of the association of California in suspending from the ministry Rev. Dr. C. O. Brown of the First Congregational Church of San Francisco, after he had been found not guilty of the charge of immorality. There was a storm of objections, but after several spirited speeches the resolution was adopted.

The heroic equestrian statue of General Winfield Scott Hancock, the soldier and statesman, was unveiled at Washington yesterday. There was an immense crowd of people and the ceremonies were imposing. There was a military demonstration in which the Second Army Corps participated. Senator John M. Palmer of Illinois, who was a Major-General of Volunteers, delivered the principal address. The President, Vice President, Justices of the Supreme Court, Congressmen and many veterans of the late war were present.

The Missouri Republican State Convention at St. Joseph yesterday occasioned a riot. Chairman Filly of the State Committee issued tickets to his delegates, whose seats were contested. Tickets were issued to the contestants by a local committee and they were in the hall before the Filly men and refused to admit anybody until the Filly men compromised. For over two hours the delegates stood in the sun. At noon the Filly men attempted to smash the doors with a battering ram, and a patrol wagon full of policemen was sent to the scene. Finally an agreement was reached and the doors were opened.

Judge Hebbard of the Superior Court, San Francisco, has rendered a second decision in the case of M. W. Fox vs. the Hale & Norcross. His first decision gave judgment against Directors Alvinza Hayward and H. M. Levy for \$210,197 for excessive milling charges, and for \$789,618 damages for fraud. The latter the Supreme Court deemed excessive and sent the case back for revision. The second judgment of Judge Hebbard sustains the damages for excessive milling charges but reduces the damages for fraud to \$417,637.

The debate on the Santa Monica appropriation of \$3,000,000 was resumed yesterday Frye from the Committee on Commerce advocating it and White of California opposing it. Vest said the matter should be settled on its merits, not as a Huntington issue. An amendment by Frye was adopted, providing for a Board of Naval Officers and Civil Engineers, to be appointed by the President, to determine whether Santa Monica or San Pedro is better adapted to a deep water harbor, and the Secretary of War is authorized to let a contract for the work at the point determined by the board. This ended the fight between Santa Monica and San Pedro. The appropriation of \$302,000 for San Pedro remains in the River and Harbor bill.

## Gladness Comes

With a better understanding of the transient nature of the many physical ills, which vanish before proper efforts—gentle efforts—pleasant efforts—rightly directed. There is comfort in the knowledge, that so many forms of sickness are not due to any actual disease, but simply to a constipated condition of the system, which the pleasant family laxative, Syrup of Figs, promptly removes. That is why it is the only remedy with millions of families, and is every where esteemed so highly by all who value good health. Its beneficial effects are due to the fact, that it is the one remedy which promotes internal cleanliness without debilitating the organs on which it acts. It is therefore all important, in order to get its beneficial effects, to note when you purchase, that you have the genuine article, which is manufactured by the California Fig Syrup Co. only and sold by all reputable druggists.

If in the enjoyment of good health, and the system is regular, laxatives or other remedies are then not needed. If afflicted with any actual disease, one may be recommended to the most skillful physicians, but if in need of a laxative, one should have the best, and with the well-informed everywhere, Syrup of Figs stands highest and is most largely used and gives most general satisfaction.

## LANDER COUNTY'S LAST MURDER CASE.

The Hider Case Dismissed on Motion of the Prosecution.

AUSTIN, May 10, 1896.

Austin has narrowly escaped being the scene of another sensational murder trial. About a year and a half ago a man by the name of Casey, residing at Galena, some fifteen miles from Battle Mountain, mysteriously disappeared. After the lapse of a month, because of unfriendly relations that had previously existed between Casey and a family residing a mile or more away by the name of Hider, suspicion became directed toward the latter. Hider and his wife were arrested and charged with the murder, but insufficient evidence being adduced, at their preliminary examination they were released. A skeleton, partially dismembered by the coyotes, and with some of the vertebrae missing, had in the meantime been found among some willows by a small creek some miles from Galena, which was by many believed to be the remains of Casey. These remains, however, bore no visible marks of foul play.

Last Fall the Grand Jury indicted Hider and his wife for murder. They were arrested, and since that time, up to the first of the present month, have been in the Lander county jail awaiting trial. Dark stains had been found on the floor of Hider's house, which were explained by the Hiders as being elder berry juice, but which the prosecution believed to be those of human blood, and upon them largely relied for a verdict. An analysis recently made, disclosed the fact that these may have been the stains of fruit juice, and upon the case being called, the State moved its dismissal on the ground of insufficient evidence, and Hider and wife are again at liberty.

## Fine Work.

The painting and decorating work, graining, etc., at the New Arcade Hotel was done by Carl Holbrook, and in every particular is well done. The sign writing, gilding and work of this character was done by Herman Werner, who is well known in Reno as one of our best local painters. Sign writing and carriage painting is a specialty with him, and the work at the Arcade as a sample of what he can do is sufficient recommendation for him. He is prepared to do any kind of sign writing or lettering on glass or otherwise and will guarantee satisfaction. His shop is at Hymers's stable.

Grand Army of the Republic—General Orders No. 3.

The following synopsis taken from General Orders No. 3, issued by Department Commander Masteller of California and Nevada will explain itself: May 30th, Memorial Day, is recognized as the sabbath of the order and all members are asked to render tribute to those comrades whose lives went out amid the roar of battle, in hospital ward or prison pen, or who in later years from hardship or disease contracted while in service, have succumbed to the inevitable.

Post Commanders are requested to see that the suggestions of the Commander-in-Chief relative to the attendance upon divine service Sunday evening, May 24th, are carried out as far as possible. Exercises in the public schools Friday, May 29th, are suggested. The reading of Lincoln's address at Gettysburg is recommended as a part of the exercises of all posts on Memorial Day.

The members of General O. M. Mitchell Post of Reno are active in arranging an interesting and entertaining program here, and the display and exercises will be more impressive than usual.

## Free Pills.

Send your address to H. E. Bucklen & Co., Chicago, and get a free sample box of Dr. King's New Life Pills. A trial box will convince you of their merits. These pills are easy in action and are particularly effective in the cure of Constipation and Sick Headache. For Malaria and Liver troubles they have been proved invaluable. They are guaranteed to be perfectly free from every deleterious substance and to be purely vegetable. They do not weaken by their action, but by giving tone to stomach and bowels, greatly invigorate the system. Regular size 25c. per box. Sold by S. J. Hodgkinson. Druggist.

## Improvements.

Messrs. Manning, Cheney and Ryland have a large force of men at work remodeling the Thompson Block. Mr. Manning's store will be extended back to the alley and the rear portion used as a large work shop and store room. The wide stairway will be a great improvement, and the offices upstairs will be well lighted and commodious. The building as a whole when finished, will be one of the most convenient public buildings in Reno.

## Lots of Talk.

About Park's Cough Syrup is what we desire. Everyone who tries this remedy says that it has no equal in the cure of all diseases of the throat and lungs. ## ANOTHER BOY HURT

George Kornmeyer Falls From a Horse and is Seriously Injured

Last evening, a little after 6 o'clock, George Kornmeyer, a boy about 16 years old, was badly hurt while trying to mount a horse from the top of a lumber pile. Just as he attempted to get onto the horse's back, the lumber under his feet wobbled and fell, throwing the boy with great force to the ground and under the horse's feet. He was picked up in an unconscious condition and carried to his mother's home. Blood was oozing from his ears, nose and mouth, and up to the time of the Drs. Phillips' arrival, who were called, he had not returned to consciousness. The doctors applied immediate remedies, but were afraid that the boy was more seriously injured than his friends at first thought.

There was no sign on his head that the horse had kicked him, but it is probable that the horse, being frightened by the falling lumber, struck the boy in the head with one of its hoofs. However this is simply speculation, as it is also thought that in falling, he struck on the top of his head. The physicians found, on a closer examination, that the skull was fractured at the base, and up to a late hour he was still unconscious and there were grave doubts as to his recovery.

## Your Boy Won't Live a Month.

So Mr. Gilman Brown, of 34 Mill St., South Gardner, Mass., was told by the doctors. His son had Lung trouble, following Typhoid Malaria, and he spent three hundred and seventy-five dollars with doctors, who finally gave him up, saying: "Your boy won't live a month." He tried Dr. King's New Discovery and a few bottles restored him to health and enabled him to go to work a perfectly well man. He says he owes his present good health to the use of Dr. King's New Discovery, and knows it to be the best in the world for Lung trouble. Trial Bottles Free at S. J. Hodgkinson's Drug Store.

## BEGGARY.

It Stares the Farmers of America in the Face.

The following facts ought to be placed in the hands of every farmer in the United States. If they are not enough to create a political revolution, then the spirit of patriotism that actuated our forefathers is dead, and their degenerate sons are only fit to be slaves.

Recent reports of the Department of Agriculture show that the decline in the prices of the products of the farm that were so manifest in the years 1893 and 1894 continued through 1895. The Department bulletin shows the following changes:

In 1890 the total value of the three staple products, corn, wheat and oats, was \$1,311,000,000; in 1892 \$1,173,000,000 and in 1895 it had fallen to \$976,000,000 or a difference between the value of the crops in 1890 and 1895 of \$344,000,000. This vast difference is not caused by the lessened production of these products, for there has been a gain in the number of bushels produced, but by the appreciation of the value of money through the destruction of nearly one-half of the people's money by the demonization of silver.

The gross product of 100 acres of the cereals mentioned, in 1890 averaged \$976, while in 1895 it averaged but \$668.

Nor has it fared any better with stock raised on the farm, as the Department bulletin states that the value of stock has declined in an equal ratio.

It is evident that the farmer's profit is all gone and that the agricultural classes have become industrial slaves, whose toil is given to enrich the bondholders and the moneyed classes.

When, we ask, will the people of America awake and throw off this financial incubus that rests upon them like a nightmare and usher in the dream of the old prosperity which Americans enjoyed previous to the criminal legislation which demonized silver? M.

## When Nature

Needs assistance it may be best to render it promptly, but one should remember to use even the most perfect remedies only when needed. The best and most simple and gentle remedy is the Syrup of Figs, manufactured by the California Fig Syrup Company.

## PEOPLE'S PARTY CONVENTION.

A Large Attendance at Sacramento. SACRAMENTO, May 12.—The California People's Party Convention met in the Assembly chamber of the State Capitol to-day. Chairman Wardell of the State Central Committee called the convention to order. He reviewed the action of the late Republican Convention and said it was a mass of incoherency. He said the Populists had 70,000 votes and will work for equal suffrage for all.

A motion to give Susan B. Anthony and other ladies seats on the platform was carried unanimously, and when the ladies were escorted to the platform the convention rose and gave three cheers.

C. A. Barlow was elected temporary chairman by a vote of 184 out of a total of 310. T. Hamilton was chosen temporary secretary and R. E. Bush, John Royal and Eugene Bradford as assistants. J. Heintz, E. A. Warner and Clarence Foote were elected sergeants-at-arms. The several committees were appointed, and a motion to select four delegates to the National Convention from each Congressional district and four from the State at large was adopted.

It would be a good time now for some enterprising cattleman to arrange to ship a train of cattle to Chicago early next month. The Nevada delegates to the Republican Convention could work their passage by punching bulls, but as it is several weeks yet before they have to go, and as long as they knocked the anti-funding resolution out, they may not be compelled to pay any fare.

When Baby was sick, we gave her Castoria. When she was a Child, she clung to Castoria. When she became a Man, she clung to Castoria. When she had Children, she gave them Castoria.

# GUN STOCKS.

The Best Made of Long Seasoned Walnut and Fashioned by Hand.

Gun stocks of good workmanship are made of well seasoned walnut.  
"That piece of wood," said a gunsmith, holding up a heavy billet saved into a rude semblance of a gun stock, "may have been 20 years seasoning. I've known the pile of wood it came from these 17 years. The piece, as you see it, is worth \$3. It is English walnut. This piece that I am shaping was worth \$4 in the rough. It is German walnut. The Brazilian walnut costs as much as \$15 for a single billet."

Cheap gun stocks are made from American walnut, which costs but a trifle in the rough, but is too porous for use in the best guns. Gun stocks are now turned out by machinery, and thus made they are cheap. The best are still handmade, and it costs about \$10 to reduce the billet of seasoned walnut to the finished and ornate stock. Most stocks are now made with the pistol grip feature in addition to the shoulder piece. Doubtless the stock as a whole is a development from the pistol handle. The traditional ornamentation is a series of crossed lines. Skilled gunsmiths spend much time and care upon the fashioning of the stock. After it has been shaped to the right form it is finished to a smooth and uniform surface with laborious sandpapering, and finally by blackened and rubbed down and polished after the manner of treating the best cabinet made furniture. A gunsmith may spend two days or more in making a stock, and a handmade stock of Brazilian walnut may be worth \$25. Fancy woods are not much used in gun stocks that are to be anything but show pieces. Mahogany is too little for the purpose, and rosewood is too heavy. The finishing has to be of a sort to resist water, and hence ordinary varnish is not used in polishing a well made gun stock. There are comparatively few gunsmiths in town that make a specialty of handmade stocks, and those are usually Germans. A gunsmith is occasionally asked to make an especially ornate stock with carvings, and possibly even inlaid with ivory or gold. These stocks are costly, but for practical purposes they are less useful than the plain stock of English, German or Brazilian walnut.—New York Sun.

THE GOOD TIME COMING.

With the New Woman on the Platform It Will Be Time to Look Out.

"Day tells me," said Aunt Dinah passing in the dining room door and reaching her hands on her hips, "day tells me that de whinnin' is ad a meetin' goin' on where dey gies speechify's same as de men. Is dat so?"

But Misses laid down the paper in which the brilliant papers delivered before the Association for the Advancement of Women, and tried to explain matters to her.

"Day dey got up on de platform, did dey?" asked the old woman, "an speak right out in meetin'?"

She was assured they did.  
"An dey kin talk back?"

She was informed that was their privilege.

"Thess Gord I dono live to see dis day!" she replied fervently. "I lay I'll de goin' hear Jones at de meetin' dis very night. De older night I felt called on to 'eat sumers, an he say: 'Set down, sis Dinah, de whinnin' must keep silence in de church. Dey's de wonker vessel.' I was hot, an I 'spout: 'Ef dey want no whinnin' in de church, Brer Jones, whar would de church be? Who pays de preacher? Whar you get dat fine coat on yo' back? Ain't it de Daughters of Zion done raise de money? Don't secun lak I hear nobody complainin' 'bout whinnin' in de church when it comes to passin' round de hat.'"

"You say de thine comin' when de whinnin' givins run de town? Dey'll clean up things then, sho'. I bonn de mayor himself can't sweep like me, let 'lone deputy plect'men. Des give me a broom an I kin clean mo' street in a hour dan de committees does in a year."

"An whinnin' givins to vote too? Good marster, how de word de change! Pus' de niggers an den de whinnin'. Rec'on folks think some dem whinnin' what's been goin' to school an colleges is got most much sense as niggers now."

"What's dat you say? Whinnin' givins pretty politics an whin' givins sell their votes?" she said. "What's de good of votin' if dey ain't us two-bit an it? Dis ole nigger's been plannin' to lay off work an vote for all de worth."—New Orleans Picayune.

The Cat Is Several Languages.  
The cat is called a kat in Danish and Dutch, katz in Swedish, chat in Franco and the most of its dependencies, katti or kisse in German, cats in Latin, gatto in Italian, gatto in Portuguese and Spanish, kot in Polish, kots in Russian, kati in Turkish, catz in Welsh, katz in Cornish, katts in Basque and gatz or katz in Armenian. Mr. Harrison, the great English authority on cats, says that there are not a dozen languages or dialects known that spell the word cat without beginning with the letter c, k or g. The native Australians and those of Mexico had no words for the name of domestic felines.—St. Louis Republic.

The Professor Lost.  
"Now, look here," said the professor to the infuriated bull, "you are my superior in strength, and my superior in mind. Let us arbitrate this matter and see which should be right have the better of our controversy."  
"Oh, no," replied the bull. "Let's toss up for it."  
Later.—The professor lost.—London Tit-Bits.

For Your Protection.—Catach "Catach" of Tonic for Ostach in liquid form to be taken internally, usually contains either Mercury or Iodide of Potassa, or both, which are injurious if too long taken. Catach is a local, not a blood disease, caused by sudden change to cold or damp weather. It starts in the nasal passages, affecting eyes, ears and throat. Cold in the head causes excessive flow of mucus, and, if repeatedly neglected, the results of catarrh will follow; severe pain in the head, a roaring sound in the ears, bad breath, and sometimes an offensive discharge. Theredly, it should be quick to allay inflammation and heal the membrane. Ely's Cream Balm is the acknowledged cure for these troubles and contains no mercury nor any injurious drug. Price, 50 cents.
